

VEDAANSH MOUN

+91-7838413143 ◇ Delhi, India

vedaanshmoun@gmail.com ◇ <https://linkedin.com/in/vedaansh-moun-22233b292>

OBJECTIVE

Eager to leverage my skills and creativity to contribute to cutting-edge technology and innovative solutions.

EDUCATION

Bachelor of Computer Science and Information Technology, **2022 - 2026**
Dronacharya Group of Institutions

Class 12th, S.S. Mota Singh Model Sr. Sec. School **2022**

Class 10th, S.S. Mota Singh Model Sr. Sec. School **2020**

SKILLS

Technical Skills Java, SWIFT, SQL, C, DSA, PHP, Python

Frameworks HTML, CSS

Version control Git, GitHub

Soft Skills Communication, Adaptability, Teamwork, Leadership, Creativity, Time-management, Problem-solving

EXPERIENCE

As a highly motivated and dedicated individual, I may not have professional experience in the field yet, but I have successfully completed several on-campus projects that have equipped me with valuable skills. I am confident in my ability to contribute meaningfully and become a valuable asset to your team. My strong work ethic and commitment to excellence will enable me to thrive in any challenging environment.

PROJECTS

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

Developed a fully responsive personal portfolio website as my first project, leveraging HTML, CSS, and JavaScript. The website showcases my skills, projects, and achievements, and received positive feedback from users for its design, functionality, and user experience. This project helped solidify my understanding of front-end development and web design principles.

Rock, Paper, Scissors Game

Technologies: HTML, CSS, JavaScript

Developed an interactive Rock, Paper, Scissors game using HTML, CSS, and JavaScript. This project involved implementing dynamic game logic, user interface design, and real-time interaction between the user and the computer. The game received positive feedback for its smooth functionality, engaging design, and seamless user experience. This project strengthened my skills in JavaScript programming, event handling, and front-end development.

Fitness Tracking iOS Application

Technologies: Swift, Xcode

Designed and developed a fitness tracking iOS application from scratch using Swift. The app focuses on basic distance and time calculations to help users track their fitness activities. This project allowed me to apply my skills in iOS development, including user interface design, data handling, and app functionality. As my first iOS project, it provided valuable experience in the full development process, from concept to deployment.

EXTRA-CURRICULAR ACTIVITIES

- **Public Speaking and Leadership:** Served as an anchor for research conferences, demonstrating strong communication and event management abilities while moderating discussions and engaging audiences.
- **Community Contributor:** Actively engaged in organizing tech events and webinars, enhancing outreach and promoting knowledge sharing within the developer community.

LEADERSHIP

- **Event Organizer:** As the Crowd Management Lead for Google Developer Group Gurugram, I successfully coordinated and managed event attendees, honing my leadership and organizational skills. Additionally, I have gained valuable experience in team leadership by serving as the team lead for multiple college hackathons and projects, where I guided and motivated teams to successfully achieve project goals. My involvement in events like ComicCon further strengthened my ability to manage large groups, while my role in college competitions helped me develop strong problem-solving, communication, and project management abilities.
